of the

American Pharmaceutical Association

INDEX TO VOLUME XXXIII

INDEX TO AUTHORS
INDEX TO SUBJECTS

JANUARY TO DECEMBER, 1944

AUTHOR INDEX

A

Adams, J. R., *see* Husa, W. J.
Alture-Werber, E., *see* Maren, T. H.
Aronson, S. A., *see* Cataline, E. L.
Asenjo, C. F., Goyco, J. A., and Fernandez, M. del C., a note on the presence of calcium oxalate in the maya fruit, 344

B

Baldinger, L. H., Ellis, N. K., and Fawcett, K. I., oil of peppermint. Storage factors and use of antioxidants as preservatives, 41
Barnard, R. D., a specific color reaction of cyanamide and ferriheme with notes on the mechanism of action of certain tissue poisons, 24
Bauer, C. W., *see* McBay, A. J.
Bauer, R. O., *see* Chase, H. F.
Bliss, C. I., the U. S. P. collaborative cat assays for digitalis, 225
Bobst, E. W., The National Pharmacy Committee on Public Information, Inc., 438
Boughton, L. L., the relative toxicity of ethyl and isopropyl alcohols as determined by long term rat feeding and external application, 111
Brown, C. M., and Waller, C. W., microadaptation of the U. S. P. method of analysis to the official silver salts, 21
Buelow, D. W., and Gisvold, O. a phytochemical investigation of *Hermidium alipes*, 270
Butler, C. L., and Costello, C. H., pharmacological studies. I. *Aletris farinosa*, 177

C

Carlson, W. W., recent advances in the search for synthetic antimalarials, 97
Cataline, E. L., Worrell, L., Jeffries, S. F., and Aronson, S. A., water-in-oil emulsifying agents, 107
Chase, H. F., Lehman, A. J., Crandall, E. R., Schwerma, H., and Bauer, R. O., isopropyl alcohol as an extractive menstruum for digitalis, 109
Chatterjee, R., a chemical study of *Mahonia nepalensis* DC. (*Berberis nepalensis* Spreng.), 210; the origin and function of the alkaloids in *Mahonia nepalensis* DC. (*Berberis nepalensis* Spreng.), 205
Chen, K. K., and Robbins, E. B., age of animals and drug action, 80; influence of age of mice on the toxicity of alcohol, 62; influence of age of rabbits on the toxicity of ouabain, 61
Christensen, B. V., *see* Darlington, R. C.
Ciminera, J. L., and Wilcox, P. W., spectrophotometric studies on the sulfonamides, 85
Clemence, L. W., *see* Raiziss, G. W.
Coleman, O. E., *see* Sumerford, W. T.
Cook, D. L., Dunker, M. F. W., and Uhl, A. H., a phytochemical study of the leaves of *Celastrus scandens* Linné, II. The nonsaponifiable material, 18
——Parks, L. M., Dunker, M. F. W., and Uhl, A. H., a phytochemical study of the leaves of *Celastrus scandens* Linné. I. A Preliminary study, 15
Costello, C. H., *see* Butler, C. L.
Crandall, E. R., *see* Chase, H. F.

D

Darlington, R. C., and Christensen, B. V., oils of cinnamon—properties and assays, 298
Daubert, B. F., some recent advances in the chemistry of fats, 321
De Haen, P., recent progress in pharmacological studies on bile acids, 161
DeKay, H. G., *see* Kessler, N. A.; Smith, A. C.
DuMez, A. G., Pharmaceutical Abstracts, 524
Dunker, M. F. W., *see* Cook, D. L.; Higgins, W. M.

E

Edwards, L. D., *see* Hocking, G. M.
Ellis, N. K., *see* Baldinger, L. H.
Enright, J. M., *see* Goyan, F. M.
Epstein, J. A., *see* Maren, T. H.

F

Fawcett, K. I., *see* Baldinger, L. H.
Feldman, H. S., and Youngken, H. W., a pharmacognostical study of buchu, 277
Fernandez, M. del C., *see* Asenjo, C. F.
Fishbein, M., "Medicine and Pharmacy in the Postwar World," 434
Fohlen, G. M., some aspects of the evaluation of sulfonamide compounds as antibacterial agents, 33
Foley, E. J., *see* Lee, S. W.
Fosbinder, Russell J., the present status of the sulfonamides, 1
Freedman, L., and Sack, A., color reactions and stability of iron ascorbate, 316
Freifelder, M., *see* Raiziss, G. W.

G

Geiter, C. W., Lands, A. M., and Lewis, J. R., a study of a new salt of neosynephrine, 359
George, M. F., Jr., *see* Hamilton, W. F.
Gisvold, O., *see* Buelow, D. W.; Hadley, W. J.; Soine, T. O.
Gold, H., *see* Krop, S.
Goodyear, J. M., and Murphy, H. W., direct quantitative determination of nicotinamide in pharmaceutical preparations, 129
Goyan, F. M., Enright, J. M., and Wells, J. M., critical graphical methods for calculating isotonic concentrations and freezing points of aqueous solutions, 74
Goyco, J. A., *see* Asenjo, C. F.
Green, M. G., *see* Steinmetz, C. A.
Griffith, I., address of the president of the American Pharmaceutical Association, 424
Gross, E. G., *see* Wheeler, L. M.
Grote, I. W., and Woods, M., laxative action in mice of tinnevelly and Alexandria senna, and of several botanically related plants, 266

H

Hadley, W. J., and Gisvold, O., a phytochemical study of *Eriodictyon angustifolium* Nuttley, 275
Hamilton, W. F., George, M. F., Jr., Simon, E., and Turnbull, F. M., vasosulfa compounds, 141
Hand, W. C., *see* Maren, T. H.
Hazleton, L. W., the present status of analeptics, 65
——and Talbert, K. D., further studies on cathartic action in mice: senna, aloe, cascara and bile salts, 170
Higgins, W. M., and Dunker, M. F. W., a study of the reaction of theophylline with barbiturates, 310
Hilty, W. W., determination of ephedrine by Kjeldahl distillation, 28
Hiner, L. D., and Miller, P. A., a histological study of *Eriodictyon californicum* II, 379
Hocking, G. M., and Edwards, L. D., nomenclature of peppermint and its varieties, 333
Holck, H. G. O., and Mathieson, D. R., effects of age, sex, castration and interval of time after parturition upon the ability of the albino rat to build up tolerance to and to detoxify pentobarbital sodium, 174
Huff, A. B., *see* Sumerford, W. T.
Husa, W. J., and Adams, J. R., isotonic solutions. II. The permeability of red corpuscles to various substances, 329
——and Jatul, B. B., the stability of solutions of phenobarbital sodium, 217

J

Jackson, R. M., and Rowe, T. D., the bacteriostatic action of tincture of iodides—N. F. VII, 188
Jannke, P., *see* Jensen, H.
Jatul, B. B., *see* Husa, W. J.
Jeffries, S. F., *see* Cataline, E. L.
Jenkins, G. L., address of the chairman to the House of Delegates: "Pharmacy—A Profession," 461
Jensen, H., and Jannke, P., sclerosing agents—sodium morrhuate, 362
Johnson, C. R., *see* Stockton, J. R.
Jordan, C. B., *see* Smith, A. C.

K

Keenan, G. L., some significant optical constants of zinc insulin crystals, 183
——and Welsh, L. H., the microscopic identification of 2-methoxy-6-chloroacridone, 128
Kessler, N. A., and DeKay, H. G., a study of the preparation of mercurial ointment, 118
Krop, S., Modell, W., and Gold, Harry, a contribution to the pharmacology of secondary amyl-beta-bromallyl barbituric acid and of its combination with antipyrine, 10
Kuever, R. A., *see* Wheeler, L. M.

L

Lands, A. M., *see* Geiter, C. W.
Lee, S. W., and Foley, E. J., a general theory for the mode of action of the sulfonamides, 82
Lehman, A. J., *see* Chase, H. F.
LeMar, L. E., and White, A. I., a study of the effect of hydrogen-ion concentration in certain ointments and lotions, 134
Lewis, J. R., *see* Geiter, C. W.
Lotzkar, H., *see* Maclay, W. D.
Lowman, M. S., *see* Sievers, A. F.

M

Maren, T. H., and Alture-Werber, E., studies in the pharmacology of mercury. IV. *In vitro* activity of mercury dispersion against *Neisseria gonorrhoeae*, 342
——Epstein, J. A., and Hand, W. C., studies in the pharmacology of mercury. II. Distribution of mercury in mice following administration of hydrophilic mercury and calomel ointments, 91
Mathieson, D. R., *see* Holck, H. G. O.
McBay, A. J., and Bauer, C. W., an investigation of pepsin preparations for pepsinogen, 190
Maclay, W. D., Shepherd, A. D., and Lotzkar, H., use of pectin in pharmaceutical pastes and ointments, 115
McMurray, R. L., *see* Sciuchetti, L. A.
Miller, L. C., the U. S. P. collaborative digitalis study using frogs (1939–1941), 245
Miller, P. A., *see* Hiner, L. D.
Modell, W., *see* Krop, S.
Moore, M. B., synthetic organic local anesthetics, 193
Moulton, G. A., response to introduction, 438; inaugural address to the A. Ph. A., 452
Murphy, H. W., *see* Goodyear, J. M.

N

Netz, C. V., the effect of age upon the *p*H of dilute solutions of zinc sulfate and solutions of mild silver protein, 222
Nomland, R., *see* Wheeler, L. M.

P

Parks, L. M., *see* Cook, D. L.
Plein, E. M., and Poe, C. F., determination of camphor and alcohol in spirit of camphor by means of physical constants, optical rotation and specific gravity, 126

Chemical Lib
Wash

Poe, C. F., *see* Plein, E. M.
Powers, J. L., The Scientific Edition of the Journal, 520

R

Raiziss, G. W., Clemence, L. W., and Freifelder, M., synthesis and chemical properties of diasone, 43
Raybin, H. W., a distinctive test for sulfadiazine, 158
Reese, J. A., the effect of storage on the activity of defatted ergot with various moisture contents, 315
Rice, R. V., the synthetic organic hypnotics, 289
Robbins, E. B., *see* Chen, K. K.
Rotondaro, F. A., a general method for the determination of mercury in the various types of pharmaceutical preparations, 353
Rowe, T. D., *see* Jackson, R. M.

S

Sack, A., *see* Freedman, L.
Schoen, K., a rapid and simple method for the determination of ephedrine, 116
Schwerma, H., *see* Chase, H. F.
Sciuchetti, L. A., and McMurray, R. L., *Solanum trifloruм* Nutt. II. Histology, 303
——McMurray, R. L., and Waller, C. W., *Solanum trifloruм* Nutt. I. A preliminary investigation, 300
Shepherd, A. D., *see* Maclay, W. D.
Sievers, A. F., and Lowman, M. S., experiments on the growing of mydriatic drug plants, 45
Simon, E., *see* Hamilton, W. F.
Smith, A. C., Jordan, C. B., and DeKay, H. G., color tests for aloe and aloin, 59; a new method for the assay of aloin in aloe, 57
Soine, T. O., a convenient synthesis of β-bromoethylphthalimide, 141; a new method for the preparation of pyridine-2,5-dicarboxylic acid, 223
——and Gisvold, O., a phytochemical study of *Argemone hispida*, 185
Steinmetz, C. A., and Green, M. G., the estimation of small amounts of lead in National Formulary preparations by the dithizone method, 213
Stockton, J. R., and Johnson, C. R., dissociation constants of slightly soluble pharmaceuticals, 383
Sumerford, W. T., Huff, A. B., and Coleman, O. K., a pharmaceutical study of the purity and preservation of American oils of turpentine, 150

T

Talbert, K. D., *see* Hazleton, L. W.
Turnbull, F. M., *see* Hamilton, W. F.

U

Uhl, A. H., *see* Cook, D. L.

W

Waller, C. W., *see* Brown, C. M.; Sciuchetti, L. A.
Warmke, H. E., use of the killifish, *Fundulus heteroclitus*, in the assay of marihuana, 122
Wells, J. M., *see* Goyan, F. M.
Welsh, L. H., the chromatographic purification and some properties of atebrin base, 318; note on "determination of ephedrine by Kjeldahl distillation," 96; *see* Keenan, G. L.
Wheeler, L. M., Kuever, R. A., Gross, E. G., and Nomland, R., dihydroxypropyl bismuthate, 156
White, A. I., *see* LeMar, L. E.
Wilcox, P. W., *see* Ciminera, J. L.
Wilson, C., address of the chairman to the Scientific Section, 511
Woods, M., *see* Grote, I. W.
Worrell, L., *see* Cataline, E. L.

Y

Youngken, H. W., studies on Indian Rhubarb, I, 145; *see* Feldman, H. S.

a.I.H.

SUBJECT INDEX

A

Addresses presented at A. Ph. A. Meeting
Bobst, E. W., "The National Pharmacy Committee on Public Information, Inc.," 438
DuMez, "Pharmaceutical Abstracts," 524
Fishbein, Morris, "Medicine and Pharmacy in the Postwar World," 434
Griffith, Ivor, "Address of the President of the AMERICAN PHARMACEUTICAL ASSOCIATION," 424
Guth, E. P., "Address of the Chairman of the Practical Pharmacy Section," 530
Jenkins, Glenn L., "Pharmacy—A Profession," 461
Moulton, George A., "Response to Introduction," 438; "Inaugural Address," 452
Powers, J. L., "The Scientific Edition of the Journal," 520
Wilson, C., "Address of the Chairman of the Scientific Section," 511
Age, the effect of, upon the *p*H of dilute solutions of zinc sulfate and solutions of mild silver protein, 222
Age of animals and drug action, 80
Age of mice, influence of, on the toxicity of alcohol, 62
Age of rabbits, influence of, on the toxicity of ouabain, 61
Age, sex, castration and interval of time, effects of, after parturition, upon the ability of the albino rat to build up tolerance to and to detoxify pentobarbital sodium, 174
Alcohol, influence of age of mice on the toxicity of, 62
Alcohol and camphor, determination of, in spirit of camphor by means of physical constants, optical rotation and specific gravity, 126
Alcohols, the relative toxicity of ethyl and isopropyl, as determined by long term rat feeding and external application, 111
Aletris farinosa, L. Pharmacological studies, 177
Alexandria senna, laxative action in mice of tinnevelly and, and of several botanically related plants, 266
Alkaloids, the origin and function of the, in *Mahonia nepalensis* DC. (*Berberis nepalensis* Spreng.), 205
Aloe, a new method for the assay of aloin in, 57
Aloe and aloin, color tests for, 59
Aloe, senna, cascara and bile salts: further studies on cathartic action in mice, 170
Aloin and aloe, color tests for, 59
Aloin in aloe, a new method for the assay of, 57
Amendments, proposed, to the By-Laws of the Scientific Section, 515
American Association of Colleges of Pharmacy, 533
American Council on Pharmaceutical Education, 479
American Institute of the History of Pharmacy, Inc., 553
American oils of turpentine, a pharmaceutical study of the purity and preservation of, 150
American Society of Hospital Pharmacists, 554
Amyl-beta-bromallyl barbituric acid, a contribution to the pharmacology of secondary, and of its combination with antipyrene, 10
Analeptics, the present status of, 65
Anesthetics, synthetic organic local, 193
Animals, age of, and drug action, 80
Antibacterial agents, some aspects of the evaluation of sulfonamide compounds as, 33
Antimalarials, recent advances in the search for synthetic, 97
Antioxidants, use of as preservatives, and storage factors. Oil of peppermint, 41
Antipyrine, a contribution to the pharmacology of secondary amyl-beta-bromallyl barbituric acid and of its combination with, 10
Aqueous solutions, critical graphical methods for calculating isotonic concentrations and freezing points of, 74
Argemone hispida, a phytochemical study of, 185
Assay of aloin in aloe, a new method for the, 57
Assay of marihuana, use of the killifish, *Fundulus heteroclitus,* in the, 122
Atebrin base, the chromatographic purification and some propertis of, 318
Auditor's Report, 415

B

Bacteriostatic action of tincture of iodides—N. F. VII, 188
Barbiturates, a study of the reaction of theophylline with, 310
Barbituric acid, a contribution to the pharmacology of secondary amyl-beta-bromallyl, and of its combination with antipyrine, 10
(Berberis nepalensis Spreng.) *Mahonia nepalensis* DC, the origin and function of the alkaloids in, 205
Bile acids, recent progress in pharmacological studies on, 161
Bile salts, aloe, senna and cascara: further studies on cathartic action in mice, 170
Bonds, Association, 414
Book Reviews
The Analytical Chemistry of Industrial Poisons, 353
Biochemistry of the Fatty acids, 160
The Chemistry of Organic Medicinal Products, 192
Colorimetric Determination of Traces of Metals, 288
Dictionary of Biochemistry and Related Subjects, 31
Encyclopedia of Substitutes and Synthetics, 30
The Examination of Waters and Water Supplies, 160
Experimental Spectroscopy, 352
Intravenous Anesthesia, 351
Introduction to Organic and Biological Chemistry, 64
Manual of Veterinary Bacteriology, 31
Optical Crystallography, 159
The Optical Properties of Organic Compounds, 63
The Organic Chemistry of Sulfur, 192
An Outlne of the Chemistry of the Carbohydrates, 32
Physical Biochemistry, 160
Plants and Vitamins, 30
Semimicro Qualitative Analysis (a Brief Course), 30
A Source Book of Agricultural Chemistry, 350
Synopsis of Materia Medica, Toxicology, and Pharmacology, 351
Textbook of Biochemistry, 32
Textbook of Quantitative Inorganic Analysis, 192
The Theory of Emulsions and Their Technical Treatment, 64
Virus Diseases in Man, Animal and Plant, 224
Vitamins and Hormones. Advances in Research and Applications, 31
***β*-Bromoethylphthalimide,** a convenient synthesis of, 141
Buchu, a pharmacognostical study of, 277
By-Laws
A. PH. A., 390
Council, 397
House of Delegates, 399
Sections, 401

C

Calcium oxalate, a note on the presence of, in the maya fruit, 344
Camphor and alcohol, determination of, in spirit of camphor by means of physical constants, optical rotation and specific gravity, 126
Cascara, aloe, senna and bile salts: further studies on cathartic action in mice, 170
Castration, sex, age and interval of time, effects of, after parturition, upon the ability of the albino rat to build up tolerance to and to detoxify pentobarbital sodium, 174
Cat assays, the U. S. P. collaborative, for digitalis, 225
Cathartic action in mice, further studies on: senna, aloe, cascara and bile salts, 170
Celastrus scandens Linné, a phytochemical study of the leaves of. I. A preliminary study, 15; II. The nonsaponifiable material, 18
Centennial Fund, 409
Certificate of Incorporation, 404
Chemical properties and synthesis of diasone, 43
Chemistry of fats, some recent advances in the, 321
Chromatographic purification and some properties of atebrin base, 318
Cinnamon, oils of—properties and assays, 298
Code of Ethics, 405
Color reaction, a specific, of cyanamide and ferriheme with notes on the mechanism of action of certain tissue poisons, 24
Color reactions and stability of iron ascorbate, 316
Color tests for aloe and aloin, 59
Committees
Constitution and By-Laws, 442
Continuation Study for Pharmacists, 489
Dental Pharmacy, 497
Horticultural nomenclature, 501
Joint Committee of the AMERICAN PHARMACEUTICAL ASSOCIATION and the American Social Hygiene Association, 494
Legislation, 496
Membership, 499
Membership (A. S. H. P.), 555
National Formulary, 448
National Pharmacy Committee on Public Information, Inc., 438
Nominations, 460
Pharmaceutical Syllabus, 503
Physiological Testing, 501
Policy and Planning, 475
Prescription Tolerances, 497
Professional Relations, 493
Resolutions, 505
Resolutions (A. A. C. P.), 538
Resolutions (N. A. B. P.), 545
Social and Economic Relations, 474
State Food and Drug Legislation, 500
Status of Pharmacists in the Government Service, 486
U. S. P. Committee of Revision, 444
War Activities, 468
Conference of Pharmaceutical Law Enforcement Officials, 551
Constitution, 389
Council of the AMERICAN PHARMACEUTICAL ASSOCIATION, 456
Cyanamide and ferriheme, a specific color reaction of, with notes on the mechanism of action of certain tissue poisons, 24

D

Defatted ergot, the effect of storage on the activity of, with various moisture contents, 315
Delegates to the House of Delegates, 459
Diasone, synthesis and chemical properties of, 43
Digitalis, isopropyl alcohol as an extractive menstruum for, 109
the U. S. P. collaborative cat assays for, 225
Digitalis study, U. S. P. collaborative, using frogs (1939–1941), 245
Dihydroxypropyl bismuthate, 156
Dissociation constants of slightly soluble pharmaceuticals, 383
Distillation, determination of ephedrine by Kjeldahl, 28
Dithizone method, the estimation of small amounts of lead in National Formulary preparations by the, 213
Drug action, age of animals, and, 80
Drug plants, experiments on the growing of mydriatic, 45

E

Emulsifying agents, water-in-oil, 107
Ephedrine, determination of, by Kjeldahl distillation, 28
note on "determination of, by Kjeldahl distillation," 96
a rapid and simple method for the determination of, 116
Ergot, the effect of storage on the activity of defatted, with various moisture contents, 315
Eriodictyon angustifolium Nuttley, a phytochemical study of, 275
Eriodictyon californicum II, a histological study of, 379
Extractive menstruum, isopropyl alcohol, as an, for digitalis, 109

F

Fats, some recent advances in the chemistry of, 321
Ferriheme and cyanamide, a specific color reaction of, with notes on the mechanism of action of certain tissue poisons, 24
Freezing points and isotonic concentrations of aqueous solutions, critical graphical methods for calculating, 74
Funds of the AMERICAN PHARMACEUTICAL ASSOCIATION, 407
College Prize Fund (Motter Fund), 410
Current Funds, 412
Ebert Legacy Fund, 410
Ebert Prize Fund, 408
Endowment Fund, 409
Franklin M. Apple Fund, 412
George and Lillian Judisch Memorial Fund, 414
Headquarters or Maintenance Fund, 411
Joseph Remington Honor Medal Fund, 413
Kilmer Prize Fund, 414
Permanent Funds, 407
Research Fund, 410
Rice Memorial Fund, 412
William Procter, Jr., Monument Fund, 312
Fundulus heteroclitus, the killifish, use of, in the assay of marihuana, 122

G

General Sessions of the 92nd Annual Meeting of the AMERICAN PHARMACEUTICAL ASSOCIATION. First Session, 423; Second Session, 443
Graphical methods, critical, for calculating isotonic concentrations and freezing points of aqueous solutions, 74
Growing of mydriatic drug plants, experiments on the, 45

H

Hermidium alipes, a phytochemical investigation of, 270
Honorary Members of the AMERICAN PHARMACEUTICAL ASSOCIATION, 568
House of Delegates of the AMERICAN PHARMACEUTICAL ASSOCIATION. First Session, 459; Second Session, 489; Third Session, 499
Hydrogen-ion concentration in certain ointment and lotions, a study of the effect of, 134
Hypnotics, the synthetic organic, 289

I

Indian rhubarb, studies on. I, 145
Iron ascorbate, color reactions and stability of, 316
Isopropylalcohol as an extractive menstruum for digitalis, 109
Isotonic concentrations and freezing points of aqueous solutions, critical graphical methods for calculating, 74
Isotonic solutions. II. The permeability of red corpuscles to various substances, 329

K

Killifish, Fundulus heteroclitus, use of the, in the assay of marihuana, 122
Kjeldahl distillation, determination of ephedrine by, 28

L

Laxative action in mice of tinnevelly and Alexandria senna, and of several botanically related plants, 266
Lead, the estimation of small amounts of, in National Formulary preparations by the Dithizone method, 213
Leaves of *Celastrus scandens* Linné, a phytochemical study of the, 15
Local anesthetics, synthetic organic, 193
Lotions and ointments, a study of the effect of hydrogen-ion concentration in certain, 134

M

Mahonia nepalensis DC. (*Berberis Nepalensis* Spreng.), a chemical study of, 210
the origin and function of the alkaloids in, 205
Marihuana, use of the killifish, *Fundulus heteroclitus,* in the assay of, 122
Maya fruit, a note on the presence of calcium oxalate in the, 344
Membership lists of the AMERICAN PHARMACEUTICAL ASSOCIATION, 568
Mercurial ointment, a study of the preparation of, 118
Mercury, a general method for the determination of, in the various types of pharmaceutical preparations, 353
studies in the pharmacology of. II. Distribution of mercury in mice following administration of hydrophilic mercury and calomel ointments, 91; IV. In vitro activity of mercury dispersion against *Neisseria gonorrhoeae,* 342
Mercury dispersion, *in vitro* activity of, against *Neisseria gonorrhoeae,* IV. Studies in the pharmacology of mercury, 342
2-Methoxy-6-chloroacridone, microscopic identification of, 128
Mice, distribution of mercury in, following administration of hydrophilic mercury and calomel ointments, II. Studies in the pharmacology of mercury, 91
further studies on cathartic action in: senna, aloe, cascara and bile salts, 170
influence of age of, on the toxicity of alcohol, 62
of tinnevelly and Alexandria senna, laxative action in, and of several botanically related plants, 266
Microscopic identification of 2-methoxy-6-chloroacridone, 128
Moisture contents, the effect of storage on the activity of defatted ergot with various, 315
Mydriatic drug plants, experiments on the growing of, 45

N

National Association of Boards of Pharmacy, 539
National Formulary preparations, the estimation of small amounts of lead in, by the Dithizone method, 213
Neisseria gonorrhoeae, *in vitro* activity of mercury dispersion against, IV. Studies in the pharmacology of mercury, 342
Neo-synephrine, a study of a new salt of, 359
N. F. VII—tincture of iodides, bacteriostatic action of, 188
Nicotinamide, direct quantitative determination of, in pharmaceutical preparations, 129
Nomenclature of peppermint and its varieties, 333

O

Officers, list of, of the AMERICAN PHARMACEUTICAL ASSOCIATION since its organization, 559
Oil of peppermint. Storage factors and use of antioxidants as preservatives, 41
Oils of cinnamon—properties and assays, 298
Oils of turpentine, a pharmaceutical study of the purity and preservation of American, 150
Ointment, a study of the preparation of mercurial, 118
Ointments and lotions, a study of the effect of hydrogen-ion concentration in certain, 134
Ointments and pastes, use of pectin in pharmaceutical, 115
Optical constants, some significant, of zinc insulin crystals, 183
Optical rotation, physical constants and specific gravity, determination of alcohol and camphor in spirit of camphor by means of, 126
Organic hypnotics, the synthetic, 289
Organic local anesthetics, synthetic, 193
Ouabain, influence of age of rabbits on the toxicity of, 61

P

Pastes and ointments, use of pectin in pharmaceutical, 115
Pectin, use of, in pharmaceutical pastes and ointments, 115
Pentobarbital sodium, effects of age, sex, castration and interval of time after parturition upon the ability of the albino rat to build up tolerance to and to detoxify, 174
Peppermint, oil of. Storage factors and use of antioxidants as preservatives, 41
and its varieties, nomenclature of, 333
Pepsin preparations for pepsinogen, an investigation of, 190
Pepsinogen, an investigation of pepsin preparations for, 190
Permeability of red corpuscles to various substances, II. Isotonic solutions, 329
pH of dilute solutions of zinc sulfate and solutions of mild silver protein, the effect of age upon the, 222
Pharmaceutical pastes and ointments, use of pectin in, 115
Pharmaceutical preparations, direct quantitative determination of nicotinamide in, 129
a general method for the determination of mercury in the various types of, 353
Pharmaceuticals, dissociation constants of slightly soluble, 383
Pharmacognostical study of buchu, 277
Pharmacological studies. I. *Aletris farinosa,* 177
Pharmacology of mercury, studies in the. II. Distribution of mercury in mice following administration of hydrophilic mercury and calomel ointments, 91; *in vitro* activity of mercury dispersion against *Neisseria gonorrhoeae,* 342
Phenobarbital sodium, stability of solutions of, 217
Physical constants, optical rotation and specific gravity, determination of alcohol and camphor in spirit of camphor by means of, 126
Phytochemical investigation of *Hermidium alipes,* 270
Phytochemical study of *Argemone hispida,* 185
Eriodictyon angustifolium Nuttley, 275
of the leaves of *Celastrus scandens* Linné, 15
Plant Science Seminar, 1943, 547
Pyridine-2,5-dicarboxylic acid, a new method for the preparations of, 223

R

Rabbits, influence of age of, on the toxicity of ouabain, 61
Rat feeding and external application, the relative toxicity of ethyl and isopropyl alcohols as determined by long term, 111
Red corpuscles, the permeability of, to various substances, II. Isotonic solutions, 329
Reports
American Council on Pharmaceutical Education, Inc., 479
Chairman of the Committee on National Formulary, 448
Chairman of the U. S. P. Committee of Revision, 444
Committee on Constitution and By-Laws, 442
Committee on Policy and Planning, 475

Committee on Social and Economic Relations, 474
Committee on the Status of Pharmacists in the Government Services, 486
Committee on War Activities, 468
National Pharmacy Committee on Public Information, Inc., 438
Secretary of the AMERICAN PHARMACEUTICAL ASSOCIATION, 466
Treasurer of the AMERICAN PHARMACEUTICAL ASSOCIATION, 464
Resolutions adopted by the AMERICAN PHARMACEUTICAL ASSOCIATION at its 92nd Annual Meeting, 505
Rhubarb, Indian, studies on. I, 145
Robert J. Ruth Trophy, 451

Sclerosing agents—sodium morrhuate, 362
Secondary amyl-beta-bromallyl barbituric acid, a contribution to the pharmacology of, and of its combination with antipyrine, 10
Sections of the AMERICAN PHARMACEUTICAL ASSOCIATION, 510
Senna, aloe, cascara and bile salts: further studies on cathartic action in mice, 170
Sex, age castration and interval of time, effects of, after parturition, upon the ability of the albino rat to build up tolerance to and to detoxify pentobarbital sodium, 174
Silver protein, the effect of age upon the *p*H of dilute solutions of zinc sulfate and solutions of mild, 222
Silver salts, microadaptation of the U. S. P. method of analysis to the official, 21
Sodium morrhuate—sclerosing agents, 362
Solanum triflorum Nutt. I. A preliminary investigation, 300; II. Histology, 303
Specific gravity, optical rotation and physical constants, determination of alcohol and camphor in spirit of camphor by means of, 126
Spectrophotometric studies on the sulfonamides, 85
Spirit of camphor, determination of alcohol and camphor in, by means of physical constants, optical rotation and specific gravity, 126
Stability of solutions of phenobarbital sodium, 217
Stability and color reactions of iron ascorbate, 316
Storage, the effect of, on the activity of defatted ergot with various moisture contents, 315
Storage factors and use of antioxidants as preservatives. Oil of peppermint, 41
Sulfadiazine, a distinctive test for, 158
Sulfonamide compounds as antibacterial agents, some aspects of the evaluation of, 33
Sulfonamides, a general theory for the mode of action of the, 82
the present status of the, 1
spectrophotometric studies on the, 85
Synthesis, a convenient, of β-bromoethylphthalimide, 141
Synthesis and chemical properties of diasone, 43
Synthetic antimalarials, recent advances in the search for, 97
Synthetic organic hypnotics, the, 289
Synthetic organic local anesthetics, 193

T

Theophylline, a study of the reaction of, with barbiturates, 310
Tincture of iodides—N. F. VII, bacteriostatic action of, 188
Tinnevelly, mice of, and Alexandria senna, laxative action in, and of several botanically related plants, 266
Tissue poisons, a specific color reaction of cyanamide and ferriheme with notes on the mechanism of action of certain, 24
Toxicity, the relative, of ethyl and isopropyl alcohols as determined by long term rat feeding and external application, 111
Toxicity of alcohol, influence of age of mice on the, 62
Toxicity of ouabain, influence of age of rabbits on the, 61
Trust Funds, 412
Turpentine, a pharmaceutical study of the purity and preservation of American oils of, 150
